

Toward a Fiduciary Society

Presented by George Kinder

**What is the connection between
listening, freedom, and
fiduciary?**

Ask Yourself

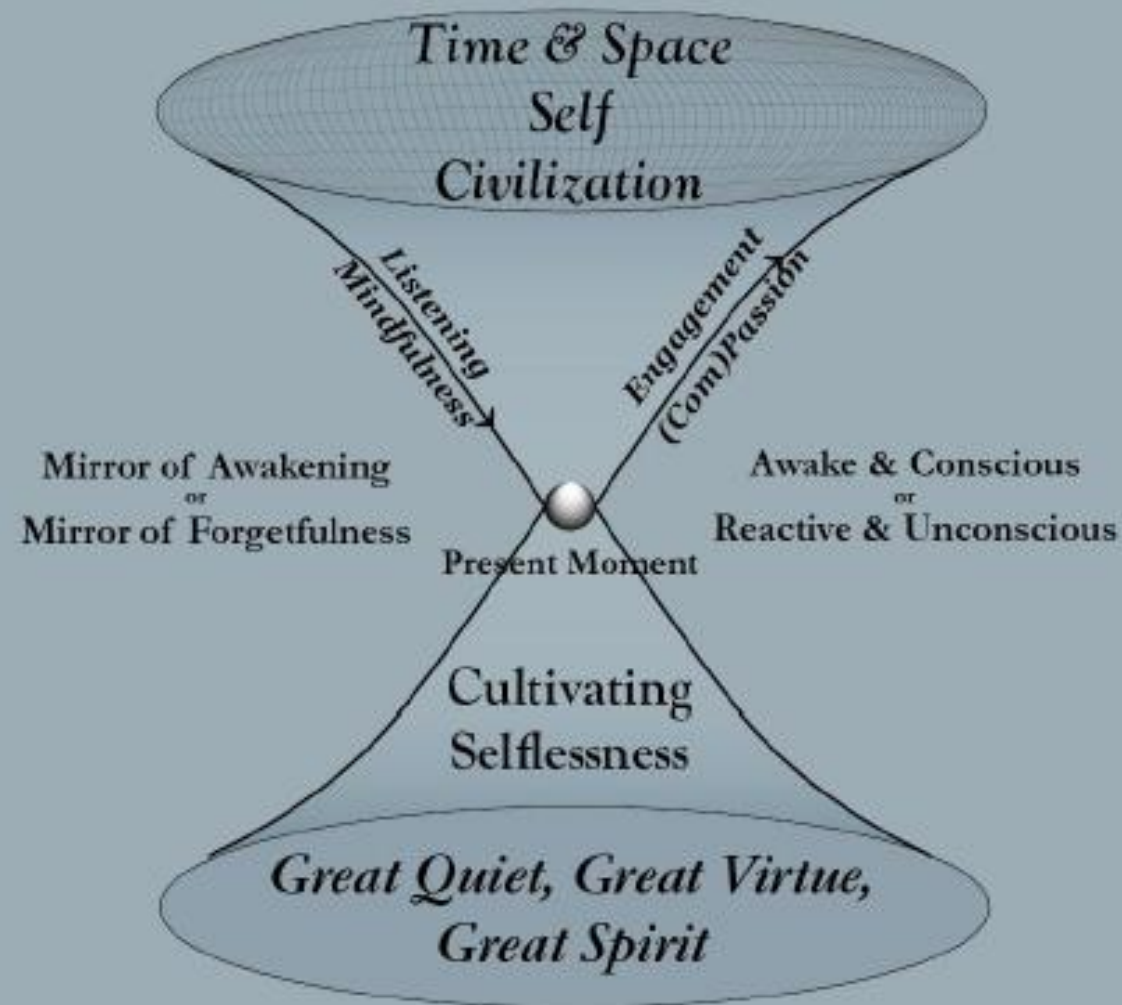

- How would it feel to you if every organization you encountered was trustworthy and humane in all they did?
- How would your life change?

Listening is 100 million times as fast as thought

In the Scientific American article “The Human Brain Operates at a Stunningly Slow Pace” from December 2024, we learn that human sensory systems operate at “100,000,000 times the rate of cognition.” That’s 100 million times faster than the rate at which we think.

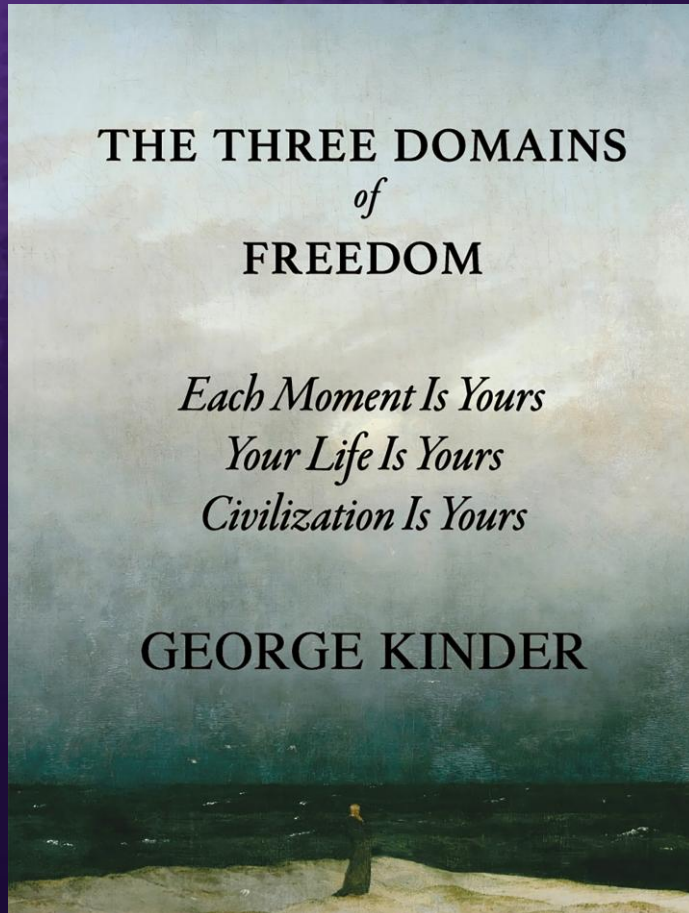

Mindfulness is the practice toward the mastery of the present moment and of emotional intelligence.

Life Planning

- 90% of first meeting can just be advisor listening
- Listen → Vision → Entrepreneurial action
- Structure of Evolution:
 - Great Listening → Action toward Freedom

As we scale globally, negative externalities scale faster than we can cope:

- Climate change
- Autocracy
- Inequality
- Misinformation/lies/propaganda
- AI
- Mirror molecules?

The Four Corners of Fiduciary

FIAT

Fiduciary In All Things

People, Planet, Profit

B Corp (PPP)

Fiduciary In All Things (FIAT)

A one-sentence legislative proposal:

"A Fiduciary standard of obligation is required for all institutions (corporate, non-profit, and governmental) to place the interests of all stakeholders, of truth, of humanity, democracy, and the living planet that sustains us, first above their own self-interest."
